Questions clients ask — answered from the website

What does Toshali Infotech do?

Toshali Infotech is an IT outsourcing company established in Surat in 2008. It describes itself as one of the most innovative AI-First Software Development Companies. It does custom software development, AI integration and automation, web and mobile app development, product engineering, enterprise solutions and system integration. It also provides remote talent hiring and dedicated development teams.

Where are your offices?

Two offices. Surat: 203, 5th Floor, SNS Interio, Althan Bhatar Road, Surat, India, 395017. Pune: Shop no. 4, Laxmikantam Bld., Tirupati Nagar, Warje, Pune, 411058.

How do I contact you?

Phone +91 7575062161. Email contactus@toshalininfotech.com. Website www.toshalininfotech.com.

When was the company founded?

2008.

What is your tagline?

Converting Ideas to Reality That Help You to Go Ahead!

Which AI services do you offer?

AI chatbot development, RAG development, AI agent development, voice AI development, AI consulting, generative AI development, machine learning development, and n8n workflow automation.

What kind of developers can I hire from you?

Web developers, mobile app developers, software developers, AI developers, web designers, blockchain developers, QA engineers and dedicated development teams, and DevOps or cloud engineers. The specific technologies for each are listed in the talent hiring table.

Which CMS platforms do you work with?

DNN (DotNetNuke), WordPress and Drupal.

Do you do blockchain or Web3 work?

Yes. Blockchain and Web3 are listed among the technologies and among the developer roles available for hire.

Questions the website does not answer

These are the gaps. In the workshop this is the useful part: NotebookLM will say it does not know, instead of inventing an answer. That is exactly the behaviour to demonstrate to the room.

How many people work at Toshal Infotech?

CONFIRM — the website does not state a team size.

What are your engagement models and commercial terms?

CONFIRM — the website describes remote talent hiring and dedicated development teams, but does not state contract length, notice period, trial period, billing cycle or rates.

How many projects have you delivered?

CONFIRM — the website does not state a project count.

Which clients can be named publicly?

CONFIRM — client logos appear on the website, including HSW, Dreamscape, Northern Star, Hevmor Mobile, MJK Finvestment and Parsons. Confirm which of these may be named aloud in a workshop before using them as an example.

What is your typical project timeline?

CONFIRM — not stated on the website.

What is your support or warranty period after delivery?

CONFIRM — not stated on the website.

Before using this as a real company document

Fill in every CONFIRM item above, then delete this section and the demo notice at the top. Until then, treat it as a teaching document only.
